SUBJECT: ESTIMATE CERTIFICATE - ISOTEX

Good evening,
my name is Davide Rossi. Recently, me and my family, we bought a building made of **ISOTEX** wood cement formwork blocks.

We are pleasantly satisfied with the choice made.

From the beginning we perceived the benefits that this constructive system has brought us in terms of living comfort and therefore of thermal and acoustic insulation, as well as the awareness of living in a building **with great anti-seismic capacities that gives us security every day.**

Definitely a product to be recommended.

In faith
Davide Rossi
